

# Controlled Chaos

## Radio Training

# Controlled Chaos

Students use eight printed out unit cards with beginning statuses. As units change status, students record what they hear on the appropriate card. To receive points, students must advise the proper location of each unit at the end of the exercise. This exercise allows for practicing focus, split ear, multi tasking. Not easy as there are multiple distractions from the radio, background noise, 911 calls, officers calling in. **HOWEVER** the task is to track every unit every movement.

HINT - Review call signs first; students must determine which unit is on the phone.

## Scoring

2A1 - 10 points	2A12 - 20 points
12A2 - 10 points	Unit 2 - 10 points
11A2 - 10 points	12A1 - 20 points
2S11 - 0 points
